

## TECHNOLOGY TIPS TO SAVE TIME AND MONEY

10 messages – Sent in 7 or 14 day intervals

Dear,

### **Going to the movies is not the same as it was when I was growing up.**

Oh, you can still have popcorn. And you can enjoy the suspense, humor, music, or theatrics. But you don't have to leave the comfort of your own home. Thanks to cable, satellite and videos, we see lots of movies. Now, with DVD's, we can see shows in movie format, with stereo sound, and even including some special effects or bonus segments.

If you find it tough to select the right DVD to rent while standing in front of the rental racks, you are not alone. If you balk at purchasing an armload of DVD's at twenty bucks each, or more, then you'll love a site which delivers all the DVD's you want to watch for just \$20.00 per month. (This offer may change, so check it out.)

Go to <http://www.netflix.com> You'll see that they offer a unique approach to renting DVD's. Rent as many as three DVD's at a time, for as long as you wish, with no late fees. Receive and return the DVD's with no shipping charges. It sounds too good to be true, doesn't it? Well, check it out for yourself.

I specialize in giving you and your friends and family all the real estate service you needs in order to make the right decision. Whether it's buying, selling, investing, or just a question, you can call on me. Enjoy the movies!
